

Planning a Course of Study

An information and communication technology course of study can be planned using outcomes from:

- the Information and Communication Technology Education Subject Area Syllabus and Guidelines
- the Information and Communication Technology Education Subject Area Syllabus and Guidelines and a key learning area syllabus(es)
- the Information and Communication Technology Education Subject Area Syllabus and Guidelines and another subject area syllabus(es).

Learning outcomes may be selected from one or more strands of each syllabus.

Courses of study of varying duration can be planned. For example:

- Year 8 course of study
- Year 8/9 course of study
- Year 8/9/10 course of study .Year 9/10 course of study
- Year 10 specialised course of study.
